

Official Warning: Counterfeit Luxman Products

It has come to our knowledge that unknown LUXMAN products are being imitated and widely sold in certain areas of the world by unauthorized vendors, bearing the same "LUXMAN" trademark and all other visual attributes of the authentic LUXMAN product, deceiving the general consumer public into believing that the counterfeit products and LUXMAN are the same, thus causing immense prejudice against the authentic LUXMAN brand image.

These 'counterfeit' products are illegally sold without the authorization of LUXMAN Corporation and are therefore not LUXMAN's responsibility. We would like to clarify that only products published on our website and sold through our authorized distributors are authentic Luxman products, designed and manufactured in Japan.

We are certain that the public will want assurance that they are purchasing an authentic LUXMAN product that is supported by our product warranty. Thus, we encourage the public to purchase LUXMAN products from our authorized distributors as LUXMAN can only offer warranty for authentic LUXMAN products purchased from them.

The trademark "LUXMAN" is exclusively owned by IAG Group Ltd., the holding company of Luxman Corporation, Japan. IAG Group Ltd. addresses a strong warning to unauthorized vendors to retract from such illegal acts and that IAG will not hesitate to enforce legal measures against anyone found to infringe the patent and copyright of the LUXMAN trademark.

For more information about our products, please browse: <http://www.luxman.co.jp/global/index.html>
